

React Native / Flutter Developer

Mobile

Startup

SMB

[Company Name] is seeking a React Native or Flutter Developer to build and maintain our cross-platform mobile applications for iOS and Android. You will own mobile features end-to-end -- from collaborating with designers on UI/UX to integrating backend APIs and shipping polished releases to the app stores. This role is ideal for someone who thrives in a fast-paced environment and takes pride in delivering smooth, high-quality mobile experiences.

Key Responsibilities

- Develop and maintain cross-platform mobile applications using React Native or Flutter
- Translate UI/UX designs into responsive, accessible, and performant mobile interfaces
- Integrate RESTful and GraphQL APIs and manage local and remote state
- Write unit, integration, and end-to-end tests to ensure app stability
- Manage app store submissions, release cycles, and over-the-air updates
- Optimize app performance including startup time, memory usage, and frame rates
- Collaborate with product, design, and backend teams to scope and deliver features

Required Skills & Experience

- 2+ years of professional experience building mobile apps with React Native or Flutter
- Strong proficiency in JavaScript/TypeScript (for React Native) or Dart (for Flutter)
- Experience with mobile state management (Redux, MobX, Riverpod, or Bloc)
- Familiarity with native build tools (Xcode, Android Studio, Gradle)
- Understanding of mobile UI/UX principles and platform-specific design guidelines
- Experience with REST and/or GraphQL API integration
- Knowledge of app store release processes for both iOS and Android

Nice-to-Have

- Experience with native iOS (Swift) or Android (Kotlin) development for writing custom modules
- Familiarity with CI/CD tools for mobile such as Fastlane, Bitrise, or CodePush
- Experience with push notifications, deep linking, and analytics SDKs
- Knowledge of accessibility best practices for mobile apps
- Experience with animation libraries (Reanimated, Lottie, Rive)

Tech Stack

React Native

Flutter

TypeScript

Dart

Redux

GraphQL

Firebase

Fastlane

Xcode

Android Studio

What We Offer

- Competitive salary and equity package
- Flexible remote or hybrid work arrangement
- Health, dental, and vision insurance
- Annual learning and development budget
- Generous PTO policy

Interview Process

1. Recruiter phone screen (30 min)
2. Technical screen with a mobile engineer covering framework fundamentals and mobile concepts (45 min)
3. Take-home or live coding exercise: build a small mobile feature (2-3 hours estimated)
4. On-site or virtual loop: code review, architecture discussion, and culture fit (2.5 hours)
5. Offer conversation with hiring manager
